**BLUERIVER ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

**Note 1 — Description of Organization and Business Operations**

BlueRiver Acquisition Corp. (the “Company”) was incorporated as a Cayman Islands exempted company on October 19, 2020. The Company was formed for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses (the “Business Combination”).

The Company is an emerging growth company and, as such, the Company is subject to all of the risks associated with emerging growth companies.

As of September 30, 2021, the Company had not commenced any operations. All activity for the period from October 19, 2020 (inception) through September 30, 2021 relates to the Company’s formation, the initial public offering (the “Initial Public Offering”) described below, and subsequent to the Initial Public Offering, searching for a business combination. The Company will not generate any operating revenues until after the completion of its initial Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income on its investments held in the trust account from the proceeds of its Initial Public Offering.

The Company’s sponsor is BlueRiver Ventures, LLC, a Cayman Islands exempted company (the “Sponsor”). The registration statement for the Company’s Initial Public Offering was declared effective on January 28, 2021. On February 2, 2021, the Company consummated its Initial Public Offering of 28,750,000 units (each, a “Unit” and collectively, the “Units” and, with respect to the Class A ordinary shares included in the Units being offered, the “Public Shares”), including 3,750,000 additional Units to cover over-allotments (the “Over-Allotment Units”), at \$10.00 per Unit, generating gross proceeds of \$287.5 million, and incurring offering costs of approximately \$16.4 million, inclusive of approximately \$10.1 million in deferred underwriting commissions (Note 5).

Simultaneously with the closing of the Initial Public Offering, the Company consummated the private placement (“Private Placement”) of 800,000 units (each, a “Private Placement Unit” and collectively, the “Private Placement Units”), at a price of \$10.00 per Private Placement Unit with the Sponsor, generating gross proceeds of approximately \$8.0 million (Notes 4 and 6).

Upon the closing of the Initial Public Offering and the Private Placement, \$287.5 million (\$10.00 per Unit) of the net proceeds of the Initial Public Offering and certain of the proceeds of the Private Placement were placed in a trust account (“Trust Account”) with Continental Stock Transfer & Trust Company acting as trustee, and will be invested only in United States “government securities” within the meaning of Section 2(a)(16) of the Investment Company Act of 1940, as amended (the “Investment Company Act”), having a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act which invest only in direct U.S. government treasury obligations, as determined by the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the Trust Account as described below.

The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Initial Public Offering and the sale of Private Placement Units, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. There is no assurance that the Company will be able to complete a Business Combination successfully. The Company must complete one or more initial Business Combinations having an aggregate fair market value of at least 80% of the net assets held in the Trust Account (excluding the amount of any deferred underwriting discount) at the time of the signing of the agreement to enter into the initial Business Combination. However, the Company will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target business or otherwise acquires a controlling interest in the target business sufficient for it not to be required to register as an investment company under the Investment Company Act.

**BLUERIVER ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

The Company will provide the holders (the “Public Shareholders”) of its Public Shares with the opportunity to redeem all or a portion of their Public Shares upon the completion of a Business Combination either (i) in connection with a shareholder meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek shareholder approval of a Business Combination or conduct a tender offer will be made by the Company, solely in its discretion, subject to applicable law and stock exchange listing requirements. The Public Shareholders will be entitled to redeem their Public Shares for a pro rata portion of the amount then in the Trust Account (initially anticipated to be \$10.00 per Public Share, plus any pro rata interest earned on the funds held in the Trust Account and not previously released to the Company to pay income taxes). The per-share amount to be distributed to Public Shareholders who redeem their Public Shares will not be reduced by the deferred underwriting commissions the Company will pay to the underwriters (as discussed in Note 5). These Public Shares will be classified as temporary equity upon the completion of the Initial Public Offering in accordance with the Financial Accounting Standards Board’s (“FASB”) Accounting Standards Codification (“ASC”) Topic 480 “Distinguishing Liabilities from Equity.” In such case, the Company will proceed with a Business Combination if the Company has net tangible assets of at least \$5,000,001 upon such consummation of a Business Combination and, only if a majority of the ordinary shares, represented in person or by proxy and entitled to vote thereon, voted at a shareholder meeting are voted in favor of the Business Combination. If a shareholder vote is not required by applicable law or stock exchange listing requirements and the Company does not decide to hold a shareholder vote for business or other reasons, the Company will, pursuant to the amended and restated memorandum and articles of association which the Company will adopt upon the consummation of the Initial Public Offering (the “Amended and Restated Memorandum and Articles of Association”), conduct the redemptions pursuant to the tender offer rules of the U.S. Securities and Exchange Commission (“SEC”) and file tender offer documents with the SEC prior to completing a Business Combination. If, however, shareholder approval of the transactions is required by law, or the Company decides to obtain shareholder approval for business or other reasons, the Company will offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. Additionally, each Public Shareholder may elect to redeem their Public Shares irrespective of whether they vote for or against the proposed transaction or vote at all. If the Company seeks shareholder approval in connection with a Business Combination, the initial shareholders (as defined below) agreed to vote their Founder Shares (as defined below in Note 4) and any Public Shares purchased during or after the Initial Public Offering in favor of a Business Combination or to not vote at all. Subsequent to the consummation of the Initial Public Offering, the Company will adopt an insider trading policy which will require insiders to: (i) refrain from purchasing shares during certain blackout periods and when they are in possession of any material non-public information and (ii) to clear all trades with the Company’s legal counsel prior to execution. In addition, the initial shareholders agreed to waive their redemption rights with respect to their Founder Shares, private placement shares (the “Private Placement Shares”) underlying the Private Placement Units and Public Shares in connection with the completion of a Business Combination.

Notwithstanding the foregoing, if the Company seeks shareholder approval of its Business Combination and does not conduct redemptions in connection with its Business Combination pursuant to the tender offer rules, the Amended and Restated Memorandum and Articles of Association will provide that a Public Shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a “group” (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”)), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the Class A ordinary shares sold in the Initial Public Offering, without the prior consent of the Company.

The Company’s Sponsor, officers and directors (the “initial shareholders”) agreed not to propose an amendment to the Amended and Restated Memorandum and Articles of Association that would (a) modify the substance or timing of the Company’s obligation to provide holders of its Public Shares the right to have their shares redeemed in connection with a Business Combination or to redeem 100% of the Company’s Public Shares if the Company does not complete its Business Combination within 24 months from the closing of this offering, or February 2, 2023, or during any Extension Period (as such period may be extended by the Company’s shareholders in accordance with the Amended and Restated Memorandum and Articles of Association, the “Combination Period”) or (b) with respect to any other material provision relating to the rights of Public Shareholders, unless the Company provides the Public Shareholders with the opportunity to redeem their Class A ordinary shares in conjunction with any such amendment.

**BLUERIVER ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

If the Company has not completed a Business Combination within the Combination Period, the Company will (i) cease all operations except for the purpose of winding up; (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account and not previously released to the Company to pay its income taxes, if any (less up to \$100,000 of interest to pay dissolution expenses) divided by the number of the then-outstanding Public Shares, which redemption will completely extinguish Public Shareholders' rights as shareholders (including the right to receive further liquidation distributions, if any); and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the remaining shareholders and the board of directors, liquidate and dissolve, subject in the case of clauses (ii) and (iii), to the Company's obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to the Company's warrants, which will expire worthless if the Company fails to consummate a Business Combination within the Combination Period.

The initial shareholders agreed to waive their liquidation rights with respect to the Founder Shares and Private Placement Shares held by them if the Company fails to complete a Business Combination within the Combination Period. However, if the initial shareholders acquire Public Shares in or after the Initial Public Offering, they will be entitled to liquidating distributions from the Trust Account with respect to such Public Shares if the Company fails to complete a Business Combination within the Combination Period. The underwriters agreed to waive their rights to their deferred underwriting commission (see Note 5) held in the Trust Account in the event the Company does not complete a Business Combination within the Combination Period and, in such event, such amounts will be included with the other funds held in the Trust Account that will be available to fund the redemption of the Public Shares. In the event of such distribution, it is possible that the per share value of the assets remaining available for distribution (including Trust Account assets) will be only \$10.00 per share initially held in the Trust Account or potentially less. In order to protect the amounts held in the Trust Account, the Sponsor agreed to be liable to the Company if and to the extent any claims by a third party for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amount of funds in the Trust Account to below the lesser of (i) \$10.00 per Public Share and (ii) the actual amount per Public Share held in the Trust Account as of the date of the liquidation of the Trust Account if less than \$10.00 per Public Share due to reductions in the value of the trust assets. This liability will not apply with respect to any claims by a third party who executed a waiver of any right, title, interest or claim of any kind in or to any monies held in the Trust Account or to any claims under the Company's indemnity of the underwriters of the Initial Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Securities Act"). Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, the Sponsor will not be responsible to the extent of any liability for such third-party claims. The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers (excluding the Company's independent registered public accounting firm), prospective target businesses and other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

***Risks and Uncertainties***

Management continues to evaluate the impact of the COVID-19 pandemic on the industry and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations, and/or search for a target company, the specific impact is not readily determinable as of the date of these unaudited condensed financial statements. The unaudited condensed financial statements do not include any adjustments that might result from the outcome of this uncertainty.

***Liquidity and Capital Resources***

As of September 30, 2021, the Company had approximately \$735,000 in its operating bank account and working capital of approximately \$58,000.

**BLUERIVER ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

The Company's liquidity needs to date have been satisfied through a contribution of \$25,000 from Sponsor to cover for certain expenses in exchange for the issuance of the Founder Shares, the loan of approximately \$79,000 from the Sponsor under the Note (as defined in Note 4), and the proceeds from the consummation of the Private Placement not held in the Trust Account. The Company repaid the Note in full on February 5, 2021. In addition, in order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors may, but are not obligated to, provide the Company Working Capital Loans (as defined in Note 4). As of September 30, 2021 and December 31, 2020, there were no amounts outstanding under any Working Capital Loans.

Management has determined that the Company has access to funds from the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors to meet its needs through the earlier of the consummation of a Business Combination or one year from this filing. Over this time period, the Company will be using these funds for paying existing accounts payable, identifying and evaluating prospective initial Business Combination candidates, performing due diligence on prospective target businesses, paying for travel expenditures, selecting the target business to merge with or acquire, and structuring, negotiating and consummating the Business Combination.

**Note 2 — Summary of Significant Accounting Policies**

***Basis of Presentation***

The accompanying unaudited condensed financial statements are presented in U.S. dollars in conformity with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 8 of Regulation S-X and pursuant to the rules and regulations of the SEC. Accordingly, they do not include all of the information and footnotes required by GAAP. In the opinion of management, the unaudited condensed financial statements reflect all adjustments, which include only normal recurring adjustments, necessary for the fair statement of the balances and results for the period presented. Operating results for the three and nine months ended September 30, 2021 are not necessarily indicative of the results that may be expected through December 31, 2021 or for any future periods.

The accompanying unaudited condensed financial statements should be read in conjunction with the audited financial statements and notes thereto included in the final prospectus filed by the Company with the SEC on February 1, 2021.

***Revision to Previously Reported Financial Statements***

In preparation of the Company's unaudited condensed financial statements as of and for quarterly period ended September 30, 2021, the Company concluded it should revise its financial statements to classify all Class A ordinary shares subject to possible redemption in temporary equity. In accordance with the SEC and its staff's guidance on redeemable equity instruments, ASC 480, paragraph 10-S99, redemption provisions not solely within the control of the Company require ordinary shares subject to redemption to be classified outside of permanent equity. The Company had previously classified a portion of its Class A ordinary shares issued in its Initial Public Offering ("Public Class A ordinary shares") in permanent equity, or total shareholders' equity. Although the Company did not specify a maximum redemption threshold, its charter currently provides that, the Company will not redeem its public shares in an amount that would cause its net tangible assets to be less than \$5,000,001. Previously, the Company did not consider redeemable shares classified as temporary equity as part of net tangible assets. Effective with these financial statements, the Company revised this interpretation to include temporary equity in net tangible assets. Accordingly, effective with this filing, the Company presents all redeemable Class A ordinary shares as temporary equity and recognizes accretion from the initial book value to redemption value at the time of its Initial Public Offering (including exercise of the over-allotment option) and in accordance with ASC 480. The change in the carrying value of the redeemable Class A ordinary shares at the Initial Public Offering resulted in a decrease of approximately \$5.6 million in additional paid-in capital and an increase of approximately \$18.5 million to accumulated deficit, as well as a reclassification of 2,405,749 shares of Class A ordinary shares from permanent equity to temporary equity. The Company will present this revision in a prospective manner in all future filings. Under this approach, the previously issued financial statements included as an exhibit to the Company's Form 8-K filed with the SEC on February 8, 2021, and Form 10-Qs will not be amended, but historical amounts presented in the current and future filings will be recast to be consistent with the current presentation, and an explanatory footnote will be provided.

**BLUERIVER ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

The impact of the revision to the unaudited condensed balance sheets as of March 31, 2021, and June 30, 2021, is a reclassification of \$9.8 million and \$23.4 million, respectively, from total shareholders' equity to Class A ordinary shares subject to possible redemption. There is no impact to the reported amounts for total assets, total liabilities, cash flows, net income (loss), or the net income (loss) per ordinary share. In connection with the change in presentation for the Class A ordinary shares subject to possible redemption, the Company has revised its earnings per ordinary share calculation to allocate income and losses shared pro rata between the two classes of ordinary shares. This presentation contemplates a Business Combination as the most likely outcome, in which case, both classes of ordinary shares share pro rata in the income and losses of the Company.

***Emerging Growth Company***

As an emerging growth company, the Company may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act"), exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that an emerging growth company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard.

This may make comparison of the Company's unaudited condensed financial statements with another public company that is neither an emerging growth company nor an emerging growth company that has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

***Use of Estimates***

The preparation of unaudited condensed financial statements in conformity with GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the unaudited condensed financial statements and the reported amounts of revenues and expenses during the reporting period. Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the unaudited condensed financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. One of the more significant accounting estimates included in these financial statements is the determination of the fair value of the warrant liabilities. Such estimates may be subject to change as more current information becomes available and accordingly the actual results could differ significantly from those estimates.

**BLUERIVER ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

***Cash and Cash Equivalents***

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company had no cash equivalents as of September 30, 2021 and December 31, 2020.

***Investments Held in Trust Account***

The Company's portfolio of investments is comprised solely of U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with a maturity of 185 days or less, or investments in money market funds that invest in U.S. government securities, or a combination thereof. The Company's investments held in the Trust Account are classified as trading securities. Trading securities are presented on the balance sheet at fair value at the end of each reporting period. Gains and losses resulting from the change in fair value of these securities is included in investment income on Trust Account in the accompanying unaudited condensed statement of operations. The estimated fair values of investments held in the Trust Account are determined using available market information.

***Concentration of Credit Risk***

Financial instruments that potentially subject the Company to concentration of credit risk consist of a cash account in a financial institution which, at times, may exceed the Federal Deposit Insurance Corporation coverage limits of \$250,000, and any cash held in Trust Account. The Company has not experienced losses on these accounts and management believes the Company is not exposed to significant risks on such account.

***Fair Value Measurements***

Fair value is defined as the price that would be received for sale of an asset or paid for transfer of a liability, in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). These tiers consist of:

- Level 1, defined as observable inputs such as quoted prices (unadjusted) for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

In some circumstances, the inputs used to measure fair value might be categorized within different levels of the fair value hierarchy. In those instances, the fair value measurement is categorized in its entirety in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement.

**BLUERIVER ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

***Derivative Warrant Liabilities***

The Company does not use derivative instruments to hedge exposures to cash flow, market, or foreign currency risks. The Company evaluates all of its financial instruments, including issued stock purchase warrants, to determine if such instruments are derivatives or contain features that qualify as embedded derivatives, pursuant to FASB ASC Topic 480 “Distinguishing Liabilities from Equity” (“ASC 480”) and FASB ASC Subtopic 815-15 “Derivatives and Hedging — Embedded Derivatives” (“ASC 815”). The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is re-assessed at the end of each reporting period.

The warrants issued in connection with the Initial Public Offering (the “Public Warrants”) and the Private Placement Warrants (as defined in Note 4) (collectively, the “warrants”) are recognized as derivative liabilities in accordance with ASC Subtopic 815-40 “Derivatives and Hedging - Contracts in Entity’s Own Equity” (“ASC 815-40”). Accordingly, the Company recognizes the warrant instruments as liabilities at fair value and adjusts the carrying value of the instruments to fair value at each reporting period until they are exercised. The initial fair value of the Public Warrants and the fair value of the Private Placement Warrants has been estimated using a binomial lattice model in a risk-neutral framework. As the transfer of Private Placement Warrants to anyone who is not a permitted transferee would result in the Private Placement Warrants having substantially the same terms as the Public Warrants, the Company determined that the fair value of each Private Placement Warrant is equivalent to that of each Public Warrant. The fair value of the Warrants as of September 30, 2021 is based on observable listed prices for such warrants. The determination of the fair value of the warrant liability may be subject to change as more current information becomes available and accordingly the actual results could differ significantly. Derivative warrant liabilities are classified as non-current liabilities as their liquidation is not reasonably expected to require the use of current assets or require the creation of current liabilities.

**BLUERIVER ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

***Offering Costs Associated with the Initial Public Offering***

Offering costs consisted of legal, accounting, underwriting fees and other costs incurred through the Initial Public Offering that were directly related to the Initial Public Offering. Offering costs are allocated to the separable financial instruments issued in the Initial Public Offering based on a relative fair value basis, compared to total proceeds received. Offering costs associated with warrant liabilities are expensed as incurred and presented as non-operating expenses in the unaudited condensed statement of operations. Offering costs associated with the Class A ordinary shares are charged against their carrying value upon the completion of the Initial Public Offering. For the nine months ended September 30, 2021, of the total offering costs of the Initial Public Offering, approximately \$590,000 is included in offering cost - derivative warrant liabilities in the unaudited condensed statement of operations and approximately \$15.8 million is allocated as a reduction to the initial carrying value of the redeemable Class A ordinary shares. The Company will keep deferred underwriting commissions classified as non-current liabilities as their liquidation is not reasonably expected to require the use of current assets or require the creation of current liabilities.

***Class A Ordinary Shares Subject to Possible Redemption***

The Company accounts for its Class A ordinary shares subject to possible redemption in accordance with the guidance in ASC Topic 480. Class A ordinary shares subject to mandatory redemption (if any) are classified as liability instruments and are measured at fair value. Conditionally redeemable Class A ordinary shares (including Class A ordinary shares that feature redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company's control) are classified as temporary equity. At all other times, Class A ordinary shares are classified as shareholders' equity. The Company's Class A ordinary shares feature certain redemption rights that are considered to be outside of the Company's control and subject to the occurrence of uncertain future events. Accordingly, as of Initial Public Offering, 28,750,000 Class A ordinary shares subject to possible redemption are presented as temporary equity, outside of the shareholders' equity section of the Company's unaudited condensed balance sheets.

Effective with the closing of the Initial Public Offering, the Company recognized the accretion from initial book value to redemption amount, which resulted in charges against additional paid-in capital (to the extent available) and accumulated deficit.

***Income Taxes***

The Company follows the guidance for accounting for income taxes under FASB ASC 740, "Income Taxes," which prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. There were no unrecognized tax benefits as of September 30, 2021 and December 31, 2020. The Company's management determined that the Cayman Islands is the Company's only major tax jurisdiction. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

There is currently no taxation imposed on income by the Government of the Cayman Islands. In accordance with Cayman income tax regulations, income taxes are not levied on the Company. Consequently, income taxes are not reflected in the Company's unaudited condensed financial statement. The Company's management does not expect that the total amount of unrecognized tax benefits will materially change over the next twelve months.

**BLUERIVER ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

**Net Income (Loss) per Ordinary Share**

The Company complies with accounting and disclosure requirements of FASB ASC Topic 260, "Earnings Per Share." The Company has two classes of ordinary shares, which are referred to as Class A ordinary shares and Class B ordinary shares. Income and losses are shared pro rata between the two classes of ordinary shares. Net income (loss) per ordinary share is calculated by dividing the net income (loss) by the weighted average ordinary shares outstanding for the respective period.

The calculation of diluted net income per ordinary share does not consider the effect of the warrants issued in connection with the Initial Public Offering and the Private Placement to purchase an aggregate of 9,850,000 Class A ordinary share in the calculation of diluted income per ordinary share, because their exercise is contingent upon future events. As a result, diluted net income per ordinary share is the same as basic net income per share ordinary for the three and nine months ended September 30, 2021. Accretion associated with the redeemable Class A ordinary shares is excluded from earnings per ordinary share as the redemption value approximates fair value.

The Company has considered the effect of Class B ordinary shares that were excluded from weighted average number as they were contingent on the exercise of over-allotment option by the underwriters. Since the contingency was satisfied, the Company included these shares in the weighted average number as of the beginning of the interim period to determine the dilutive impact of these shares.

The following table reflects presents a reconciliation of the numerator and denominator used to compute basic and diluted net income per ordinary share for each class of ordinary shares:

	Three Months Ended September 30, 2021		Nine Months Ended September 30, 2021	
	Class A	Class B	Class A	Class B
<b>Basic net income per ordinary share:</b>				
<i>Numerator:</i>				
Allocation of net income	\$ 1,621,620	\$ 394,430	\$ 1,604,241	\$ 435,255
<i>Denominator:</i>				
Basic weighted average ordinary shares outstanding	29,550,000	7,187,500	26,086,264	7,077,610
Basic net income per ordinary share	<u>\$ 0.05</u>	<u>\$ 0.05</u>	<u>\$ 0.06</u>	<u>\$ 0.06</u>
<b>Diluted net income per ordinary share:</b>				
<i>Numerator:</i>				
Allocation of net income	\$ 1,621,620	\$ 394,430	\$ 1,598,942	\$ 440,554
<i>Denominator:</i>				
Diluted weighted average ordinary shares outstanding	29,550,000	7,187,500	26,086,264	7,187,500
Diluted net income per ordinary share	<u>\$ 0.05</u>	<u>\$ 0.05</u>	<u>\$ 0.06</u>	<u>\$ 0.06</u>

**BLUERIVER ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

***Recent Accounting Pronouncements***

In August 2020, the FASB issued Accounting Standards Update (“ASU”) No. 2020-06, *Debt --Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging --Contracts in Entity’s Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity’s Own Equity* (“ASU 2020-06”), which simplifies accounting for convertible instruments by removing major separation models required under current GAAP. The ASU also removes certain settlement conditions that are required for equity-linked contracts to qualify for the derivative scope exception, and it simplifies the diluted earnings per share calculation in certain areas. The Company adopted ASU 2020-06 on January 1, 2021. Adoption of the ASU did not impact the Company’s financial position, results of operations or cash flows.

The Company’s management does not believe that any other recently issued, but not yet effective, accounting standards if currently adopted would have a material effect on the accompanying financial statements.

**Note 3 — Initial Public Offering**

On February 2, 2021, the Company consummated its Initial Public Offering of 28,750,000 Units, including 3,750,000 Over-Allotment Units, at \$10.00 per Unit, generating gross proceeds of \$287.5 million, and incurring offering costs of approximately \$16.4 million, inclusive of approximately \$10.1 million in deferred underwriting commissions.

Each Unit consists of one Class A ordinary share, and one-third of one redeemable warrant (each, a “Public Warrant”). Each Public Warrant entitles the holder to purchase one Class A ordinary share at a price of \$11.50 per share, subject to adjustment (see Note 8).

**Note 4 — Related Party Transactions**

***Founder Shares***

On October 30, 2020, the Sponsor paid \$25,000 to cover certain expenses of the Company in consideration of 7,187,500 Class B ordinary shares, par value \$0.0001, (the “Founder Shares”). The Sponsor agreed to forfeit up to 937,500 Founder Shares to the extent that the over-allotment option was not exercised in full by the underwriters, so that the Founder Shares would represent 20.0% of the Company’s issued and outstanding ordinary shares (excluding the Private Placement Shares) after the Initial Public Offering. The underwriters fully exercised the over-allotment option on February 2, 2021; thus, these 937,500 Founder Shares were no longer subject to forfeiture.

The initial shareholders agreed, subject to limited exceptions, not to transfer, assign or sell any of their Founder Shares until the earlier to occur of: (A) one year after the completion of the initial Business Combination and (B) subsequent to the initial Business Combination, (x) if the last reported sale price of Class A ordinary shares equals or exceeds \$12.00 per share (as adjusted for share sub-divisions, share capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the initial Business Combination, or (y) the date on which the Company completes a liquidation, merger, share exchange, reorganization or other similar transaction that results in all of the Public Shareholders having the right to exchange their ordinary shares for cash, securities or other property.

***Private Placement Units***

Simultaneously with the closing of the Initial Public Offering, the Company consummated the Private Placement of 800,000 Private Placement Units, at a price of \$10.00 per Private Placement Unit with the Sponsor, generating gross proceeds of approximately \$8.0 million.

**BLUERIVER ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

The Private Placement Units (including the Private Placement Shares, the Private Placement Warrants (as defined below) and Class A ordinary shares issuable upon exercise of such warrants) will not be transferable or salable until 30 days after the completion of the initial Business Combination. Each whole Private Placement Warrant underlying the Private Placement Units (the “Private Placement Warrants”) is exercisable for one whole Class A ordinary share at a price of \$11.50 per share. A portion of the proceeds from the Private Placement Units was added to the proceeds from the Initial Public Offering held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the Private Placement Units and the underlying securities will expire worthless. The Private Placement Warrants will be non-redeemable (except as described in Note 6 below under “Redemption of warrants for Class A ordinary shares when the price per Class A ordinary share equals or exceeds \$ 10.00”) and exercisable on a cashless basis so long as they are held by the Sponsor or its permitted transferees.

The Sponsor and the Company’s officers and directors agreed, subject to limited exceptions, not to transfer, assign or sell any of their Private Placement Units until 30 days after the completion of the initial Business Combination.

***Related Party Loans***

On October 23, 2020, the Sponsor agreed to loan the Company an aggregate of up to \$300,000 to cover for expenses related to the Initial Public Offering pursuant to a promissory note (the “Note”). This loan was non-interest bearing and due upon the completion of the Initial Public Offering. The Company had borrowed approximately \$79,000 under the Note and on February 5, 2021, the Company fully repaid the Note. Subsequent to the repayment, the facility was no longer available to the Company.

In addition, in order to fund working capital deficiencies or finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company’s officers and directors may, but are not obligated to, loan the Company funds as may be required (“Working Capital Loans”). If the Company completes a Business Combination, the Company may repay the Working Capital Loans out of the proceeds of the Trust Account released to the Company. Otherwise, the Working Capital Loans may be repaid only out of funds held outside the Trust Account. In the event that a Business Combination does not close, the Company may use a portion of the proceeds held outside the Trust Account to repay the Working Capital Loans but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. The Working Capital Loans would either be repaid upon consummation of a Business Combination, without interest, or, at the lenders’ discretion, up to \$1.5 million of such Working Capital Loans may be convertible into warrants of the post Business Combination entity at a price of \$10.00 per unit. The units would be identical to the Private Placement Units. As of September 30, 2021 and December 31, 2020, the Company had no outstanding borrowings under the Working Capital Loans. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans.

***Administrative Support Agreement***

The Company entered into an agreement pursuant to which, commencing on the effective date of the Company’s prospectus through the earlier of consummation of the initial Business Combination or the Company’s liquidation, the Company agreed to pay an affiliate of the Sponsor for administrative and other related services provided to the Company in the amount of \$50,000 per month; provided, however that such amount may be higher or lower depending on actual costs incurred during the month. Administrative expenses were included within general and administrative expenses - related party in the unaudited condensed statement of operations. For the three and nine months ended September 30, 2021, the Company incurred \$150,000 and \$400,000 in administrative expenses, respectively. As of September 30, 2021, \$ 50,000 has been included in due to related party on the unaudited condensed balance sheets.

**BLUERIVER ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

In addition, the Sponsor, executive officers and directors, or any of their respective affiliates will be reimbursed for any out-of-pocket expenses incurred in connection with activities on the Company's behalf such as identifying potential target businesses and performing due diligence on suitable Business Combinations. The audit committee will review on a quarterly basis all payments that were made by the Company to the Sponsor, executive officers or directors, or their affiliates. Any such payments prior to an initial Business Combination will be made using funds held outside the Trust Account. Other than these payments and reimbursements, no compensation of any kind, including finders' and consulting fees, will be paid by the Company to the Sponsor, executive officers and directors, or any of their respective affiliates, prior to completion of the initial Business Combination. As of September 30, 2021, approximately \$1,000 has been included in due to related parties on the unaudited condensed balance sheets.

**Note 5 — Commitments and Contingencies**

***Registration Rights***

The holders of Founder Shares, Private Placement Units, Private Placement Shares, Private Placement Warrants, Class A ordinary shares underlying the Private Placement Warrants and warrants that may be issued upon conversion of working capital loans (and any Class A ordinary shares issuable upon the exercise of the Private Placement Warrants and warrants that may be issued upon conversion of Founder Shares and upon conversion of the Working Capital Loans), were entitled to registration rights pursuant to a registration and shareholder rights agreement signed upon consummation of the Initial Public Offering. The holders of these securities were entitled to make up to three demands, excluding short form demands, that the Company registers such securities. In addition, the holders have certain "piggy-back" registration rights with respect to registration statements filed subsequent to the Company's completion of its Business Combination. However, the registration and shareholder rights agreement provides that the Company will not permit any registration statement filed under the Securities Act to become effective until termination of the applicable lock-up period, which occurs (i) in the case of the Founder Shares, in accordance with the letter agreement the Company's initial shareholders entered into and (ii) in the case of the Private Placement Warrants and the respective Class A ordinary shares underlying such warrants, 30 days after the completion of the Company's Business Combination. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

***Underwriting Agreement***

The Company granted the underwriters a 45-day option from the final prospectus relating to the Initial Public Offering to purchase up to 3,750,000 additional Units to cover over-allotments, if any, at the Initial Public Offering price less the underwriting discounts and commissions. The underwriters fully exercised the over-allotment option on February 2, 2021.

The underwriters were entitled to an underwriting discount of \$0.20 per Unit, or approximately \$5.8 million in the aggregate, paid upon the closing of the Initial Public Offering. In addition, \$0.35 per unit, or approximately \$10.1 million in the aggregate will be payable to the underwriters for deferred underwriting commissions. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

**Note 6 — Derivative Warrant Liabilities**

As of September 30, 2021, the Company had 9,583,333 Public Warrants and 266,667 Private Warrants outstanding. There were no warrants outstanding at December 31, 2020.

**BLUERIVER ACQUISITION CORP.  
NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

Public Warrants may only be exercised in whole and only for a whole number of shares. The Public Warrants will become exercisable on the later of (a) 30 days after the completion of a Business Combination and (b) 12 months from the closing of the Initial Public Offering. The Company agreed that as soon as practicable, but in no event later than 20 business days after the closing of the initial Business Combination, the Company will use its commercially reasonable efforts to file with the SEC a registration statement covering the issuance of the Class A ordinary shares issuable upon exercise of the warrants, and the Company will use its commercially reasonable efforts to cause the same to become effective within 60 business days after the closing of the initial Business Combination, and to maintain the effectiveness of such registration statement and a current prospectus relating to those Class A ordinary shares until the warrants expire or are redeemed, as specified in the warrant agreement; provided that if the Class A ordinary shares are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of a “covered security” under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of Public Warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company so elect, the Company will not be required to file or maintain in effect a registration statement. If a registration statement covering the Class A ordinary shares issuable upon exercise of the warrants is not effective by the 60th day after the closing of the initial Business Combination, warrant holders may, until such time as there is an effective registration statement and during any period when the Company will have failed to maintain an effective registration statement, exercise warrants on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act or another exemption, but the Company will use its best efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

The warrant has an exercise price of \$11.50, subject to adjustments as described herein, and will expire five years after the completion of a Business Combination or earlier upon redemption or liquidation. In addition, if (x) the Company issues additional Class A ordinary shares or equity linked securities for capital raising purposes in connection with the closing of the initial Business Combination at an issue price or effective issue price of less than \$9.20 per Class A ordinary share (with such issue price or effective issue price to be determined in good faith by the board of directors and, in the case of any such issuance to the Sponsor or its affiliates, without taking into account any Founder Shares held by the Sponsor or such affiliates, as applicable, prior to such issuance), or the “Newly Issued Price”, (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of the initial Business Combination on the date of the consummation of the initial Business Combination (net of redemptions), and (z) the volume-weighted average trading price of the ordinary shares during the 20 trading day period starting on the trading day after the day on which the Company consummates its initial Business Combination (such price, the “Market Value”) is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$10.00 and \$18.00 per share redemption trigger prices described under “Redemption of warrants when the price per Class A ordinary share equal or exceed \$10.00” and “Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00” will be adjusted (to the nearest cent) to be equal to 100% and 180% of the higher of the Market Value and the Newly Issued Price, respectively.

The Private Placement Warrants have terms and provisions that are identical to those of the Public Warrants. The Private Placement Warrants (including the Class A ordinary shares issuable upon exercise of the Private Placement Warrants) will not be transferable, assignable or salable until 30 days after the completion of the initial Business Combination (except pursuant to limited exceptions to the officers and directors and other persons or entities affiliated with the initial purchasers of the Private Placement Warrants) and they will not be redeemable by the Company (except as described under “Redemption of warrants when the price per Class A ordinary share equals or exceeds \$10.00”) so long as they are held by the Sponsor or its permitted transferees (except as otherwise set forth herein). The Sponsor, or its permitted transferees, has the option to exercise the Private Placement Warrants on a cashless basis. If the private Placement Warrants are held by holders other than the Sponsor or its permitted transferees, the Private Placement Warrants will be redeemable by the Company in all redemption scenarios and exercisable by the holders on the same basis as the Public Warrants.

***Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00.***

Once the warrants become exercisable, the Company may redeem the outstanding warrants (except with respect to the Private Placement Warrants):

- in whole and not in part;

**BLUERIVER ACQUISITION CORP.  
NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

- at a price of \$0.01 per warrant;
- upon a minimum of 30 days' prior written notice of redemption; and
- if, and only if, the last reported sales price (the "closing price") of the Class A ordinary shares equals or exceeds \$18.00 per share (as adjusted for share sub-divisions, share capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which the Company sends the notice of redemption to the warrant holders (the "Reference Value").

The Company will not redeem the warrants as described above unless an effective registration statement under the Securities Act covering the Class A ordinary shares issuable upon exercise of the warrants is effective and a current prospectus relating to those Class A ordinary shares is available throughout the 30-day redemption period.

***Redemption of warrants when the price per Class A ordinary share equals or exceeds \$10.00.***

After the warrants become exercisable, the Company may redeem the outstanding warrants:

- in whole and not in part;
- at \$0.10 per warrant upon a minimum of 30 days' prior written notice of redemption *provided* that holders will be able to exercise their warrants on a cashless basis prior to redemption and receive that number of shares determined by reference to an agreed table based on the redemption date and the "fair market value" of Class A ordinary shares;
- if, and only if, the closing price of Class A ordinary shares equals or exceeds \$10.00 per Public Share (as adjusted per share subdivisions, share dividends, reorganizations, recapitalizations and the like) on the trading day before the Company sends the notice of redemption to the warrant holders; and
- if the Reference Value is less than \$18.00 per share (as adjusted for share splits, share dividends, rights issuances, subdivisions, reorganizations, recapitalizations and the like), then the Private Placement Warrants must also concurrently be called for redemption on the same terms (except as described herein with respect to a holders' ability to cashless exercise its warrants) as the outstanding Public Warrants as described above.

The "fair market value" of Class A ordinary shares for the above purpose shall mean the volume weighted average price of Class A ordinary shares during the 10 trading days immediately following the date on which the notice of redemption is sent to the holders of warrants. In no event will the warrants be exercisable in connection with this redemption feature for more than 0.361 Class A ordinary shares per warrant (subject to adjustment).

If the Company has not completed the initial Business Combination within the Combination Period and the Company liquidates the funds held in the Trust Account, holders of warrants will not receive any of such funds with respect to their warrants, nor will they receive any distribution from the Company's assets held outside of the Trust Account with respect to such warrants. Accordingly, the warrants may expire worthless.

**BLUERIVER ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

**NOTE 7 - Class A Ordinary Shares Subject To Possible Redemption**

The Company's Class A ordinary shares feature certain redemption rights that are considered to be outside of the Company's control and subject to the occurrence of future events. The Company is authorized to issue 200,000,000 shares of Class A ordinary shares with a par value of \$0.0001 per share. Holders of the Company's Class A ordinary shares are entitled to one vote for each ordinary share. As of September 30, 2021, there were 28,750,000 shares of Class A ordinary shares outstanding that were subject to possible redemption and are classified outside of permanent equity in the unaudited condensed balance sheet.

The Class A ordinary shares subject to possible redemption reflected on the unaudited condensed balance sheet is reconciled on the following table:

Gross proceeds	\$ 287,500,000
Less:	
Proceeds allocated to public warrants	(10,350,000)
Class A ordinary shares issuance costs	(15,806,777)
Plus:	
Accretion of carrying value to redemption value	26,156,777
Class A ordinary shares subject to possible redemption	<u>\$ 287,500,000</u>

**Note 8 — Shareholders' Equity (Deficit)**

**Preference Shares** — The Company is authorized to issue 1,000,000 preference shares with such designations, voting and other rights and preferences as may be determined from time to time by the Company's board of directors. As of September 30, 2021 and December 31, 2020, there were no preference shares issued or outstanding.

**Class A Ordinary Shares** — The Company is authorized to issue 200,000,000 Class A ordinary shares with a par value of \$0.0001 per share. As of September 30, 2021, there were 29,550,000 shares of Class A ordinary shares outstanding, of which 28,750,000 were subject to possible redemption and are classified outside of permanent equity in the unaudited condensed balance sheet (see Note 7).

**Class B Ordinary Shares** — The Company is authorized to issue 20,000,000 Class B ordinary shares with a par value of \$0.0001 per share. As of September 30, 2021 and December 31, 2020, there were 7,187,500 Class B ordinary shares issued and outstanding (see Note 4).

Ordinary shareholders of record are entitled to one vote for each share held on all matters to be voted on by shareholders. Except as described below, holders of Class A ordinary shares and holders of Class B ordinary shares will vote together as a single class on all matters submitted to a vote of the shareholders except as required by law.

The Class B ordinary shares will automatically convert into Class A ordinary shares on the first business day following the consummation of the initial Business Combination at a ratio such that the number of Class A ordinary shares issuable upon conversion of all Founder Shares will equal, in the aggregate, on an as-converted basis, 20% of the sum of (i) the total number of ordinary shares issued and outstanding upon the consummation of the Initial Public Offering (excluding the Private Placement Shares underlying the Private Placement Units), plus (ii) the sum of the total number of Class A ordinary shares issued or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by the Company in connection with or in relation to the consummation of the initial Business Combination (net of any redemptions of Class A ordinary shares by public shareholders), excluding any Class A ordinary shares or equity-linked securities exercisable for or convertible into Class A ordinary shares issued, deemed issued, or to be issued, to any seller in the initial Business Combination and any private placement units issued to the Sponsor, members of the management team or any of their affiliates upon conversion of Working Capital Loans. In no event will the Class B ordinary shares convert into Class A ordinary shares at a rate of less than one-to-one.

**BLUERIVER ACQUISITION CORP.**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

**Note 9 — Fair Value Measurements**

The following table presents information about the Company’s financial assets and liabilities that are measured at fair value on a recurring basis as of September 30, 2021 and indicates the fair value hierarchy of the valuation techniques that the Company utilized to determine such fair value.

Description	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)
<b>Assets:</b>			
Investments held in Trust Account - US Treasury securities	\$ 287,513,239	\$ —	\$ —
<b>Liabilities:</b>			
Derivative warrant liabilities - Public Warrants	\$ 6,229,166	\$ —	\$ —
Derivative warrant liabilities - Private Placement Warrants	\$ —	\$ 173,334	\$ —

Transfers to/from Levels 1, 2, and 3 are recognized at the beginning of the reporting period. The estimated fair value of the Public Warrants transferred from a Level 3 measurement to a Level 1 fair value measurement in March 2021, when the Public Warrants were separately listed and traded. The estimated fair value of the Private Placement Warrants was transferred from a Level 3 measurement to a Level 2 fair value measurement at the same time as Public Warrants, as the transfer of Private Placement Warrants to anyone who is not a permitted transferee would result in the Private Placement Warrants having substantially the same terms as the Public Warrants.

Level 1 instruments include investments in money market funds that invest solely in U.S. Treasury securities and Public Warrants. The Company uses quoted market prices from dealers or brokers, and other similar sources to determine the fair value of its investments.

Level 2 instruments include Private Placement Warrants. The Company uses the same quoted market prices from dealers or brokers, and other similar sources as Public Warrants to determine the fair value of its investments.

There were no Level 3 measurement inputs used in the three and nine months ended September 30, 2021.

The change in the fair value of the derivative warrant liabilities, measured using Level 3 inputs, for the three and nine months ended September 30, 2021 is summarized as follows:

Derivative warrant liabilities at January 1, 2021	\$ —
Issuance of Public and Private Warrants	10,638,000
Transfer of Public Warrants to Level 1	(10,350,000)
Transfer of Private Warrants to Level 2	(288,000)
Change in fair value of derivative warrant liabilities	—
Derivative warrant liabilities at March 31, 2021	—
Change in fair value of derivative warrant liabilities	—
Derivative warrant liabilities at June 30, 2021	—
Change in fair value of derivative warrant liabilities	—
Derivative warrant liabilities at September 30, 2021	\$ —

**Note 10 — Subsequent Events**

The Company evaluated subsequent events and transactions that occurred up to the date of the unaudited condensed financial statements were issued. Based upon this review, the Company determined that there have been no events that have occurred that would require adjustments to the disclosures in the unaudited condensed financial statements.

**Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.**

*References to the “Company,” “BlueRiver Acquisition Corp.” “our,” “us” or “we” refer to BlueRiver Acquisition Corp. The following discussion and analysis of the Company’s financial condition and results of operations should be read in conjunction with the financial statements and the notes thereto contained elsewhere in this report. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.*

**Cautionary Note Regarding Forward-Looking Statements**

*This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Exchange Act of 1934, as amended (the “Exchange Act”). We have based these forward-looking statements on our current expectations and projections about future events. These forward-looking statements are subject to known and unknown risks, uncertainties and assumptions about us that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as “may,” “should,” “could,” “would,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “continue,” or the negative of such terms or other similar expressions. Factors that might cause or contribute to such a discrepancy include, but are not limited to, those described in our other the Securities and Exchange Commission (the “SEC”) filings.*

**Overview**

We are a blank check company incorporated as a Cayman Islands exempted company on October 19, 2020. We were formed for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses (the “Business Combination”). We are an emerging growth company and, as such, we are subject to all of the risks associated with emerging growth companies.

Our sponsor is BlueRiver Ventures, LLC, a Cayman Islands exempted company (the “Sponsor”). The registration statement for our initial public offering was declared effective on January 28, 2021 (the “Initial Public Offering”). On February 2, 2021, we consummated its Initial Public Offering of 28,750,000 units (each, a “Unit” and collectively, the “Units” and, with respect to the Class A ordinary shares included in the Units being offered, the “Public Shares”), including 3,750,000 additional Units to cover over-allotments (the “Over-Allotment Units”), at \$10.00 per Unit, generating gross proceeds of \$287.5 million, and incurring offering costs of approximately \$16.4 million, inclusive of approximately \$10.1 million in deferred underwriting commissions (Note 5).

Simultaneously with the closing of the Initial Public Offering, we consummated the private placement (“Private Placement”) of 800,000 units (each, a “Private Placement Unit” and collectively, the “Private Placement Units”), at a price of \$10.00 per Private Placement Unit with the Sponsor, generating gross proceeds of approximately \$8.0 million (Note 4).

Upon the closing of the Initial Public Offering and the Private Placement, \$287.5 million (\$10.00 per Unit) of the net proceeds of the Initial Public Offering and certain of the proceeds of the Private Placement were placed in a trust account (“Trust Account”), located in the United States at JP Morgan Chase Bank, N.A. with Continental Stock Transfer & Trust Company acting as trustee, and will be invested only in United States “government securities” within the meaning of Section 2(a)(16) of the Investment Company Act of 1940, as amended (the “Investment Company Act”), having a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act which invest only in direct U.S. government treasury obligations, as determined by us, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the Trust Account as described below.

Our management has broad discretion with respect to the specific application of the net proceeds of the Initial Public Offering and the sale of Private Placement Units, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. There is no assurance that we will be able to complete a Business Combination successfully. We must complete one or more initial Business Combinations having an aggregate fair market value of at least 80% of the net assets held in the Trust Account (excluding the amount of any deferred underwriting discount) at the time of the signing of the agreement to enter into the initial Business Combination. However, we will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target business or otherwise acquires a controlling interest in the target business sufficient for it not to be required to register as an investment company under the Investment Company Act.

If we are unable to complete a Business Combination within the Combination Period (as defined in Note 1), we will (i) cease all operations except for the purpose of winding up; (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account and not previously released to us to pay our income taxes, if any (less up to \$100,000 of interest to pay dissolution expenses) divided by the number of the then-outstanding Public Shares, which redemption will completely extinguish Public Shareholders' rights as shareholders (including the right to receive further liquidation distributions, if any); and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the remaining shareholders and the board of directors, liquidate and dissolve, subject in the case of clauses (ii) and (iii), to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we fail to consummate a Business Combination within the Combination Period.

#### *Liquidity and Capital Resources*

As of September 30, 2021, we had approximately \$735,000 in cash and working capital of approximately \$58,000.

Our liquidity needs through September 30, 2021 have been satisfied through a contribution of \$25,000 from Sponsor to cover for certain expenses in exchange for the issuance of the Founder Shares (as defined above in Note 4), the loan of approximately \$79,000 from the Sponsor under the Note (as defined above in Note 4), and the proceeds from the consummation of the Private Placement not held in the Trust Account. We repaid the Note in full on February 5, 2021. In addition, in order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of our officers and directors may, but are not obligated to, provide us Working Capital Loans (as defined above in Note 4). As of September 30, 2021 and December 31, 2020, there were no amounts outstanding under any Working Capital Loans.

Management has determined that the Company has access to funds from the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors to meet its needs through the earlier of the consummation of a Business Combination or one year from this filing. Over this time period, the Company will be using these funds for paying existing accounts payable, identifying and evaluating prospective initial Business Combination candidates, performing due diligence on prospective target businesses, paying for travel expenditures, selecting the target business to merge with or acquire, and structuring, negotiating and consummating the Business Combination.

Management continues to evaluate the impact of the COVID-19 pandemic and has concluded that the specific impact is not readily determinable as of the date of the unaudited condensed financial statements. The unaudited condensed financial statements do not include any adjustments that might result from the outcome of this uncertainty.

#### **Results of Operations**

Our entire activity since inception up to September 30, 2021 was in preparation for our formation and the Initial Public Offering, and since the Initial Public Offering, our search for a prospective target for our Business Combination. We will not be generating any operating revenues until the closing and completion of our initial Business Combination.

For the three months ended September 30, 2021, we had net income of approximately \$2.0 million, which consisted of change in fair value of derivative liabilities of approximately \$3.1 million, and investment income on the Trust Account of approximately \$6,000, offset by general and administrative expenses of approximately \$893,000 and general and administrative expenses to related party of \$150,000.

For the nine months ended September 30, 2021, we had net income of approximately \$2.0 million, which consisted of change in fair value of derivative liabilities of approximately \$4.2 million, and investment income on the Trust Account of approximately \$13,000, offset by general and administrative expenses of approximately \$1.2 million, general and administrative expenses to related party of \$400,000 and offering costs to derivative warrant liabilities of approximately \$590,000.

### **Contractual Obligations**

#### *Registration Rights*

The holders of Founder Shares, Private Placement Units, Private Placement Shares, (as defined above in Note 1) Private Placement Warrants (as defined above in Note 4), Class A ordinary shares underlying the Private Placement Warrants and warrants that may be issued upon conversion of working capital loans (and any Class A ordinary shares issuable upon the exercise of the Private Placement Warrants and warrants that may be issued upon conversion of Founder Shares and upon conversion of the Working Capital Loans), were entitled to registration rights pursuant to a registration and shareholder rights agreement signed upon consummation of the Initial Public Offering. The holders of these securities were entitled to make up to three demands, excluding short form demands, that we register such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to our completion of its Business Combination. However, the registration and shareholder rights agreement provides that we will not permit any registration statement filed under the Securities Act to become effective until termination of the applicable lock-up period, which occurs (i) in the case of the Founder Shares, in accordance with the letter agreement our initial shareholders entered into and (ii) in the case of the Private Placement Warrants and the respective Class A ordinary shares underlying such warrants, 30 days after the completion of our Business Combination. We will bear the expenses incurred in connection with the filing of any such registration statements.

#### *Underwriting Agreement*

We granted the underwriters a 45-day option from the final prospectus relating to the Initial Public Offering to purchase up to 3,750,000 additional Units to cover over-allotments, if any, at the Initial Public Offering price less the underwriting discounts and commissions. The underwriters fully exercised the over-allotment option on February 2, 2021.

The underwriters were entitled to an underwriting discount of \$0.20 per Unit, or approximately \$5.8 million in the aggregate, paid upon the closing of the Initial Public Offering. In addition, \$0.35 per unit, or approximately \$10.1 million in the aggregate will be payable to the underwriters for deferred underwriting commissions. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that we complete a Business Combination, subject to the terms of the underwriting agreement.

### **Critical Accounting Policies**

The preparation of unaudited condensed financial statements and related disclosures in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the unaudited condensed financial statements, and income and expenses during the periods reported. Actual results could materially differ from those estimates. We have identified the following as our critical accounting policies:

#### *Derivative Warrant Liabilities*

The Company does not use derivative instruments to hedge exposures to cash flow, market, or foreign currency risks. The Company evaluates all of its financial instruments, including issued stock purchase warrants, to determine if such instruments are derivatives or contain features that qualify as embedded derivatives, pursuant to the Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") Topic 480 "Distinguishing Liabilities from Equity" ("ASC 480") and FASB ASC Subtopic 815-15 "Derivatives and Hedging - Embedded Derivatives" ("ASC 815"). The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is re-assessed at the end of each reporting period.

The warrants issued in connection with the Initial Public Offering (the "Public Warrants") and the Private Placement Warrants (as defined in Note 4) (collectively, the "warrants") are recognized as derivative liabilities in accordance with ASC 815-40. Accordingly, the Company recognizes the warrant instruments as liabilities at fair value and adjusts the carrying value of the instruments to fair value at each reporting period until they are exercised. The initial fair value of the Public Warrants and the fair value of the Private Placement Warrants has been estimated using a binomial lattice model in a risk-neutral framework. As the transfer of Private Placement Warrants to anyone who is not a permitted transferee would result in the Private Placement Warrants having substantially the same terms as the Public Warrants, the Company determined that the fair value of each Private Placement Warrant is equivalent to that of each Public Warrant. The fair value of the warrants as of September 30, 2021 is based on observable listed prices for such warrants. The determination of the fair value of the warrant liability may be subject to change as more current information becomes available and accordingly the actual results could differ significantly. Derivative warrant liabilities are classified as non-current liabilities as their liquidation is not reasonably expected to require the use of current assets or require the creation of current liabilities.

#### *Class A Ordinary Shares Subject to Possible Redemption*

The Company accounts for its Class A ordinary shares subject to possible redemption in accordance with the guidance in ASC Topic 480 "Distinguishing Liabilities from Equity." Class A ordinary shares subject to mandatory redemption (if any) are classified as liability instruments and are measured at fair value. Conditionally redeemable Class A ordinary shares (including Class A ordinary shares that feature redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company's control) are classified as temporary equity. At all other times, Class A ordinary shares are classified as shareholders' equity. The Company's Class A ordinary shares feature certain redemption rights that are considered to be outside of the Company's control and subject to the occurrence of uncertain future events. Accordingly, as of September 30, 2021 and December 31, 2020, 28,750,000 and no Class A ordinary shares, respectively, subject to possible redemption are presented as temporary equity, outside of the shareholders' equity section of the Company's unaudited condensed balance sheets.

Effective with the closing of the Initial Public Offering, we recognized the accretion from initial book value to redemption amount, which resulted in charges against additional paid-in capital (to the extent available) and accumulated deficit.

#### *Net Income (Loss) per Ordinary Share*

We comply with accounting and disclosure requirements of FASB ASC Topic 260, "Earnings Per Share." We have two classes of ordinary shares, which are referred to as Class A ordinary shares and Class B ordinary shares. Income and losses are shared pro rata between the two classes of ordinary shares. Net income (loss) per ordinary share is calculated by dividing the net income (loss) by the weighted average ordinary shares outstanding for the respective period.

The calculation of diluted net income per ordinary share does not consider the effect of the warrants issued in connection with the Initial Public Offering and the Private Placement to purchase an aggregate of 9,850,000 Class A ordinary share in the calculation of diluted income per ordinary share, because their exercise is contingent upon future events. As a result, diluted net income per ordinary share is the same as basic net income per share ordinary for the three and nine months ended September 30, 2021. Accretion associated with the redeemable Class A ordinary shares is excluded from earnings per ordinary share as the redemption value approximates fair value.

The Company has considered the effect of Class B ordinary shares that were excluded from weighted average number as they were contingent on the exercise of over-allotment option by the underwriters. Since the contingency was satisfied, the Company included these shares in the weighted average number as of the beginning of the interim period to determine the dilutive impact of these shares.

#### *Recent Accounting Pronouncements*

In August 2020, the FASB issued Accounting Standards Update (“ASU”) No. 2020-06, *Debt --Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging --Contracts in Entity’ Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity’ Own Equity* (“ASU 2020-06”), which simplifies accounting for convertible instruments by removing major separation models required under current GAAP. The ASU also removes certain settlement conditions that are required for equity-linked contracts to qualify for the derivative scope exception, and it simplifies the diluted earnings per share calculation in certain areas. The Company adopted ASU 2020-06 on January 1, 2021. Adoption of the ASU did not impact the Company’s financial position, results of operations or cash flows.

The Company’s management does not believe that any other recently issued, but not yet effective, accounting standards if currently adopted would have a material effect on the accompanying financial statements.

#### **Off-Balance Sheet Arrangements**

As of September 30, 2021, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K.

#### **JOBS Act**

The Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”) contains provisions that, among other things, relax certain reporting requirements for qualifying public companies. We qualify as an “emerging growth company” and under the JOBS Act are allowed to comply with new or revised accounting pronouncements based on the effective date for private (not publicly traded) companies. We are electing to delay the adoption of new or revised accounting standards, and as a result, we may not comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. As a result, the unaudited condensed financial statements may not be comparable to companies that comply with new or revised accounting pronouncements as of public company effective dates.

Additionally, we are in the process of evaluating the benefits of relying on the other reduced reporting requirements provided by the JOBS Act. Subject to certain conditions set forth in the JOBS Act, if, as an “emerging growth company,” we choose to rely on such exemptions we may not be required to, among other things, (i) provide an auditor’s attestation report on our system of internal controls over financial reporting pursuant to Section 404, (ii) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act, (iii) comply with any requirement that may be adopted by the PCAOB regarding mandatory audit firm rotation or a supplement to the auditor’s report providing additional information about the audit and the financial statements (auditor discussion and analysis) and (iv) disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the Chief Executive Officer’s compensation to median employee compensation. These exemptions will apply for a period of five years following the completion of our Initial Public Offering or until we are no longer an “emerging growth company,” whichever is earlier.

#### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information otherwise required under this item.

#### **Item 4. Controls and Procedures**

##### *Evaluation of Disclosure Controls and Procedures*

Our management evaluated, with the participation of our current chief executive officer and chief financial officer (our “Certifying Officers”), the effectiveness of our disclosure controls and procedures as of September 30, 2021, pursuant to Rule 13a-15(b) under the Exchange Act. Based upon that evaluation, our Certifying Officers concluded that our disclosure controls and procedures were effective as of September 30, 2021.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in company reports filed or submitted under the Exchange Act is accumulated and communicated to management, including our chief executive officer and chief financial officer, to allow timely decisions regarding required disclosure.

##### *Changes in Internal Control over Financial Reporting*

There was no change in our internal control over financial reporting that occurred during the fiscal quarter ended September 30, 2021, covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. The material weakness discussed below was remediated during the quarter ended September 30, 2021.

##### *Remediation of a Material Weakness in Internal Control over Financial Reporting*

We recognize the importance of the control environment as it sets the overall tone for the Company and is the foundation for all other components of internal control. Consequently, we designed and implemented remediation measures to address the material weakness previously identified in the 2nd quarter of 2021 and enhanced our internal control over financial reporting. In light of the material weakness, we enhanced our processes to identify and appropriately apply applicable accounting requirements to better evaluate and understand the nuances of the complex accounting standards that apply to our condensed consolidated financial statements, including providing enhanced access to accounting literature, research materials and documents and increased communication among our personnel and third-party professionals with whom we consult regarding complex accounting applications. The foregoing actions, which we believe remediated the material weakness in internal control over financial reporting, were completed as of the date of September 30, 2021.

## **PART II - OTHER INFORMATION**

#### **Item 1. Legal Proceedings**

None.

#### **Item 1A. Risk Factors**

As of the date of this Quarterly Report on Form 10-Q, there have been no material changes to the risk factors disclosed in our final prospectus filed with the SEC on February 1, 2021, except for the below risk factor. We may disclose changes to such factors or disclose additional factors from time to time in our future filings with the SEC.

***The securities in which we invest the funds held in the Trust Account could bear a negative rate of interest, which could reduce the value of the assets held in trust such that the per-share redemption amount received by public shareholders may be less than \$10.00 per share.***

The proceeds held in the trust account will be invested only in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act, which invest only in direct U.S. government treasury obligations. While short-term U.S. government treasury obligations currently yield a positive rate of interest, they have briefly yielded negative interest rates in recent years. Central banks in Europe and Japan pursued interest rates below zero in recent years, and the Open Market Committee of the Federal Reserve has not ruled out the possibility that it may in the future adopt similar policies in the United States. In the event that we are unable to complete our initial business combination or make certain amendments to our amended and restated memorandum and articles of association, our public shareholders are entitled to receive their pro-rata share of the proceeds held in the trust account, plus any interest income, net of income taxes paid or payable (less, in the case we are unable to complete our initial business combination, \$100,000 of interest to pay dissolution expenses). Negative interest rates could reduce the value of the assets held in trust such that the per-share redemption amount received by public shareholders may be less than \$10.00 per share.

***We have identified a material weakness in our internal control over financial reporting. If we are unable to develop and maintain an effective system of internal control over financial reporting, we may not be able to accurately report our financial results in a timely manner, which may adversely affect investor confidence in us and materially and adversely affect our business and operating results.***

Following the SEC Staff Statement, and after consultation with our independent registered public accounting firm, our management and our audit committee concluded that, in light of the SEC Staff Statement, it was appropriate to restate our previously issued audited balance sheet as of February 2, 2021 to account for our warrants as liabilities measured at fair value, rather than equity securities. As a result of these events, we have identified a material weakness in our internal control over financial reporting. See Part I, Item 4 “*Controls and Procedures*” of this Quarterly Report.

Consequently, we designed and implemented remediation measures to address the material weakness. We enhanced our processes to identify and appropriately apply applicable accounting requirements to better evaluate and understand the nuances of the complex accounting standards that apply to our condensed consolidated financial statements, including providing enhanced access to accounting literature, research materials and documents and increased communication among our personnel and third-party professionals with whom we consult regarding complex accounting applications. The foregoing actions, which we believe remediated the material weakness in internal control over financial reporting, were completed as of the date of September 30, 2021.

Effective internal controls are necessary for us to provide reliable financial reports and prevent fraud. We continue to evaluate steps to remediate the material weakness. If we identify any new material weakness in the future, any such newly identified material weakness could limit our ability to prevent or detect a misstatement of our accounts or disclosures that could result in a material misstatement of our annual or interim financial statements. In such case, we may be unable to maintain compliance with securities law requirements regarding timely filing of periodic reports in addition to applicable stock exchange listing requirements, investors may lose confidence in our financial reporting and the price of our securities may decline as a result. We cannot assure you that the measures we have taken to date, or any measures we may take in the future, will be sufficient to avoid potential future material weaknesses.

## **Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

Simultaneously with the closing of the Initial Public Offering, we consummated the Private Placement of 800,000 units at a price of \$10.00 per Private Placement Unit with the Sponsor, generating gross proceeds of approximately \$8.0 million (Note 4).

In connection with the Initial Public Offering, our sponsor had agreed to loan us an aggregate of up to \$300,000 pursuant to the Note. This loan is non-interest bearing and payable on the consummation of the Initial Public Offering. As of September 30, 2021, the loan balance was \$0.

Of the gross proceeds received from the Initial Public Offering and the full exercise of the option to purchase additional Shares, \$287,500,000 was placed in the Trust Account. The net proceeds of the Initial Public Offering and certain proceeds from the Private Placement are invested in U.S. government treasury bills with a maturity of 180 days or less and in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations.

We paid a total of approximately \$6.1 million in underwriting discounts and commissions related to the Initial Public Offering. In addition, the underwriters agreed to defer \$10.1 million in underwriting discounts and commissions.

**Item 3. Defaults upon Senior Securities**

None.

**Item 4. Mine Safety Disclosures.**

Not applicable.

**Item 5. Other Information.**

None.

**Item 6. Exhibits.**

\* These certifications are furnished to the SEC pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 and are deemed not filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, nor shall they be deemed incorporated by reference in any filing under the Securities Act of 1933, except as shall be expressly set forth by specific reference in such filing.

**SIGNATURE**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Dated: November 15, 2021

**BLUERIVER ACQUISITION CORP.**

By: /s/ John Gregg

Name: John Gregg

Title: Co-Chief Executive Officer

**CERTIFICATION PURSUANT TO RULES 13a-14(a) AND 15d-14(a)  
UNDER THE SECURITIES EXCHANGE ACT OF 1934, AS ADOPTED PURSUANT TO  
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, John Gregg, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the quarter ended September 30, 2021 of BlueRiver Acquisition Corp.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
  - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b. [Paragraph omitted pursuant to SEC Release Nos. 33-8238/34-47986 and 33-8392/34-49313];
  - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.
